

Natalie Seeto

Full Stack Developer

TECH SKILLS

Languages

Javascript, Node.js

Frameworks

React.js, Express.js,
Handlebars, Leaflet.js

Testing

Tape, Shot, QUnit

Databases

MySQL, PostgreSQL

Tools

Git, npm, Heroku, Travis CI

Methodologies

Agile, TDD

ABOUT

I see technology as a tool to solve problems, believe writing code is better in pairs, and am eager to build valuable software for clients while learning with them along the way.

EXPERIENCE

Founders and Coders (Mentor and Freelance Developer)

Teaching Founders & Coders' 16-week software development course with a heavy focus on JavaScript (Node, Express, React), TDD (Tape, Istanbul), pair programming, PostgreSQL and agile project management.

CURRENT PROJECTS

iMacaque

React

Node.js

Express.js

PostgreSQL

A web app designed for monkeys (yes monkeys) assisting in neurology research. Working in collaboration with PhD students at Cambridge University.
Completed using agile methodologies.

Little Window

React

Node.js

Express.js

AWS

A chat bot built for Chayn, an award-winning open source project tackling gender-based violence globally.
Also using BotPress, DialogFlow, Googlesheets API.

EDUCATION

Full Stack Web Development, Founders and Coders
Master of Public Health, University of Sydney

SELF-LEARNING

Ruby: Learn Ruby (Codecademy, 2017), Learn to Program (Chris Pine), The Well Grounded Rubyist (David A. Black)

SASS: SASS Workflow (Udemy), SASS Fundamentals (Frontend Masters).

React: Modern React with Redux (Stephen Grider), Node with React: Fullstack Web Development (Stephen Grider)

GIVING BACK

Mentor at Node Girls, London

Mentor at Founders and Coders, London

Participant at NHS Hack Day 2018, Cardiff

OTHER EXPERIENCE

Service Development, NHS

Developed clinical pathways to optimize hospital resources and patient outcomes. Managed the balance between strategy and implementation to achieve transformation of services and enhance organizational performance. Implementation of training program for treating paediatric patients.

Project Manager, NSW Health, Australia

Developed strategic direction and redesigned the paediatric oncology therapy service improving patient and clinical outcomes.

Research Intern, The George Institute of Global Health

Collate and analyse data regarding admissions and diagnostic times. Consult with research officers and business manager on key findings and future directions.
